Delegate Email

*Must be postmarked by 1/31/25

MEMBERSHIP LEVELS 2025

Business districts should self-select to join or renew at the membership level that best matches the current stage of the business district’s evolution. The definitions below help business districts strategically assess their current association development, plan for future growth, and choose their membership level.

Sustaining - \$1,650 (\$1,500 before 2/1/25)

- Includes designation on member list and website.

Large and/or Established - \$1,400 (\$1,250 before 2/1/25)

- Large – Business district has consistent membership/support and stable funding. Total annual business district revenue is \$25,000* or more.
- Established – Business district is in 6th year or longer of operations and/or has established a long track record of successful services and events.

Medium and/or Growing - \$950 (\$850 before 2/1/25)

- Medium – Business district is experiencing significant membership/support growth. Total annual business district revenue is \$5,000 to \$24,999*.
- Growing – Business district is in 3rd to 5th year of operations and is still investing in new programs, services and benefits.

Small and/or Year 2+ - \$450 (\$400 before 2/1/25)

- Small – Business district is just beginning to build membership/support. Total annual business district revenue is less than \$5,000*.
- Year 2+ – Business district is in the second full year of operations following incorporation and/or is just beginning to provide services.

While Venture Portland hopes business district associations increase their membership level as the district evolves, we understand changes to association status and district development may impact level choice.

*Total business district revenue should reflect all sources of funding, including, but not limited to: grants, membership dues, sponsors, vendors, events and in-kind contributions.
